

The Fifth of Thirteen
Karl Camp
2018 Steinbeck Scholarship Recipients

My name is Karl Camp, a student at Concordia University Chicago (CUC) majoring in computer science. I am the son of Russian missionaries Leif and Yevgeniya Camp. Throughout this missionary journey God has allowed us to serve people across numerous areas in Russia, namely St. Petersburg, the Volga Valley, and Siberia. In that time, I had the pleasure of assisting my parents in organizing short term missionary groups, translating at English camps, and distributing Lutheran literature to bring the gospel of Jesus

Christ to the people of Russia.

In this upcoming year I will be taking Software Engineering II, Physics I and II, Number Theory, Introduction to Mathematical Proof, Music of the Church and Jazz Improvisation. I will also be a part of Institute of Electronics and Engineers at CUC club and a CUC Wind Symphony Ensemble member.

I am not sure what I want to do after school. God has blessed me with an array of talents and interests that are quite disparate. In my experience as a missionary kid you learn that you never know where God will send you next, therefore I have not made very concrete plans for my future. However, to answer your question, I want to do software engineering, create an album and play in a band, and share Christ with nations who do not know the love of Christ. Will all of those happen? Probably not. Will any one of those happen? God willing, yes. However, if God calls me elsewhere I will gladly go and follow Him wherever He needs me.

Thank you for your support. It is a huge blessing to me and is allowing me to accomplish my dreams at CUC. May God bless you as you have been a blessing to me.

Gratefully yours,
Karl Camp
