

## GRANT #16

### EVERY ONE HIS WITNESS

\$4,000

### LCMS Witness and Outreach Ministry

With over 200 million non-churched people in the United States, this initiative is a witness and outreach evangelism programs that equips believers to be effective witnesses of Jesus Christ in their everyday lives. It approaches witnessing and outreach as the calling of every believer, focusing particularly in the United States, to share in God's joy as He works through us to gather the lost into His Church. The LCMS, in its June 2016 Convention, adopted this program for implementation thought out the LCMS. This evangelism program includes elements to develop and provide resources for witnessing to people in diverse contexts, cultures and languages in North America, including other world religions and cults, as well as de-churched and un-churched people. Funds will be used to develop more modules and various media formats and other resources in multiple languages to use Luther's Small Catechism as a witnessing resource.
